Commonwealth of Kentucky

KENTUCKY
CRIME CLOCK
1983

one SERIOUS CRIME every 4.6 min.

one PERSONAL CRIME every 39.3 min.

- one MURDER OR MANSLAUGHTER every 31.5 hrs.
- one FORCIBLE RAPE every 12.8 hrs.
- one ROBBERY every 2.9 hrs.
- one ASSAULT every 55.8 min.

one PROPERTY CRIME every 5.2 min.

- one BURGLARY every 16.9 min.
- one LARCENY-THEFT every 8.2 min.
- one MOTOR VEHICLE THEFT every 1.3 hrs.

OFFICE OF THE GOVERNOR
FRANKFORT, KENTUCKY 40601

MARTHA LAYNE COLLINS
GOVERNOR

My Fellow Kentuckians:

Whether affected individually or collectively, we as citizens of Kentucky pay the price for each criminal offense committed. We have the responsibility not only to report all crime to law enforcement officers, but also to take the initiative in the prevention of crime.

The Kentucky Uniform Crime Reporting Program is an intrical part in the analysis of crime trends occurring within Kentucky. In 1983, state and local law enforcement agencies reported a total of 111,834 offenses as compared to 118,541 offenses reported in 1982. In essence, Index Offenses in Kentucky were reduced by 5.7 percent. With the exception of forcible rape and aggravated assault, all Part I Index Crime declined.

While criminal justice agencies are mandated the responsibility of the protection of the citizenry, without citizen assistance and support, criminal justice agencies cannot perform effectively. Therefore, you as the citizen must assist in the fight against crime.

Sincerely,

Martha Layne Collins
Governor

COMMONWEALTH OF KENTUCKY

KENTUCKY STATE POLICE

FRANKFORT 40601

OFFICE OF THE COMMISSIONER

The Honorable Martha Layne Collins
Governor of Kentucky
Capitol Building
Frankfort, Kentucky 40601

Dear Governor Collins:

In order to provide the citizens of Kentucky with an overview of crime trends occurring within the Commonwealth, crime data was collected from 347 law enforcement agencies. In excess of 4,176 agency reports were analyzed, quality controlled and tabulated in order to develop the 14th annual Uniform Crime Report Booklet.

While Kentucky Revised Statute 17.147 places specific mandates with regard to the collection of crime data on the Kentucky State Police, it should be noted that local law enforcement agencies voluntarily submit crime reports, thereby making this booklet possible.

Therefore, pursuant to Kentucky Revised Statute 17.147(7), the 14th annual Uniform Crime Report publication is hereby respectfully submitted.

Sincerely,

Morgan T. Elkins
Commissioner

THE 1983 "CRIME IN KENTUCKY" REPORT
IS DEDICATED TO THESE KENTUCKY OFFICERS
WHO GAVE THEIR LIVES IN THE LINE OF DUTY
DURING THE PERIOD OF 1979 THROUGH 1983

TROOPER CLINTON E. CUNNINGHAM	1979	KENTUCKY STATE POLICE
DEPUTY SHERIFF CLAUDE FLINCHUM	1979	WOLFE COUNTY SHERIFF'S OFFICE
DEPUTY SHERIFF EARL SMITH	1979	PIKE COUNTY SHERIFF'S OFFICE
PATROLMAN DANIEL L. HAY	1979	MAYSVILLE POLICE DEPARTMENT
TROOPER EDWARD R. HARRIS	1979	KENTUCKY STATE POLICE
PATROLMAN CHRISTOPHER M. DUNN	1980	JEFFERSON COUNTY POLICE
DEPUTY SHERIFF HIRAM A. RITCHIE	1980	PERRY COUNTY SHERIFF'S OFFICE
TROOPER JEROME CLIFTON	1980	KENTUCKY STATE POLICE
DETECTIVE DARRELL V. PHELPS	1981	KENTUCKY STATE POLICE
DEPUTY SHERIFF ALEX AVERSOLE	1983	PERRY COUNTY SHERIFF'S OFFICE
DEPUTY JAILER CHARLES WENTWORTH	1983	SHELBY COUNTY JAILER

INTRODUCTION

Kentucky is a land diversified in socioeconomic and demographic characteristics. Largely agricultural in makeup, over half of its 39,655 square miles of land is devoted to farming. The Bluegrass Region in the center of the state, famous world over for its horses, is also among the most fertile farm land in Kentucky, leading the state in the production of burley tobacco. Stretching southward and westward from the Bluegrass to the Mississippi River, Kentucky farmers produce a numerous variety of crops, including tobacco, hay, corn, wheat, and other grains.

Far eastern Kentucky is the home of the Appalachian Mountains and Kentucky's rich and expansive coal deposits. Recent fluctuations in the price and availability of oil have precipitated a boom in the coal industry, which has had a significant impact on the residents of eastern Kentucky. According to the 1980 census figures, this portion of the state has grown by as much as 35 percent, in some areas, since 1970. Other areas of eastern Kentucky have grown by 20-25 percent, compared to the statewide average of 13.7 percent. Such dramatic increases in population have had a significant impact on the lifestyle and expectations of Kentucky's mountain residents.

Aside from the eastern coal fields, Kentucky has a western coal field, situated primarily in the Pennyrile Region of the state. Moderate to rapid growth has also been experienced in this area over the last 10 years. The 1980 census revealed a growth rate of 16.3 percent for the seventies decade. Some experts believe that this may be the fastest growing region in the stae by the year 2020.

The smallest rate of growth in Kentucky since 1970 has been the Jefferson Area Development District, containing the state's largest metropolitan area. The 1980 census, in general, has revealed a migratory trend out of large cities and into rural areas. The growth rate for the Jefferson Area Development District was 3.6 percent from 1970 to 1980.

Most of the crime statistics presented in this publication will be divided according to Area Development District, as total figures do not accurately portray the diversity that exists between different regions of the state. To enable the reader, therefore, to develop a better understanding for, and appreciation of the different regions, a number of socioeconomic and demographic variables have been compiled by Area Development District. These are presented on the following pages for their descriptive value, and are not meant to reflect either positively or negatively on any particular region or regions throughout the state. Although some of these factors may have an influence on crime statistics, they are not necessarily predictors of crime, and should not be considered as such. The variables include:

1. Population Figures for 1970 and 1980

Although population cannot be considered a cause of crime, it is common knowledge that crime occurs most often in heavily populated areas. Whether this is due to the fact that a large number of people yields a large number of potential criminals, as well as potential victims, whether urbanites report crimes more readily than do rural populations, whether different external factors encouraging population growth also encourage crime growth, or whether some other complex relationship exists between the two variables, heavily populated areas in Kentucky, especially major metropolitan regions, are marked by higher incidences of crime (especially property related crimes) than are sparsely populated regions. For this reason, it is important to consider the location of large population centers and the general population distribution within the state when comparing the regional crime statistics and when describing regional characteristics.

2. The Change in Population 1970-1980

This statistic will indicate those areas of the state experiencing growth or decline in population. By comparing these rates, a general impression of those areas of Kentucky which are experiencing rapid growth or decline can be obtained. These may provide an indication of possible future expectations of crime patterns within the state.

3. The Net Migration into the Area in Thousands (1970-1979)

Migration relates to the number of persons moving into the region compared to those moving out. Areas displaying large migration figures will be experiencing a large influx of people from other areas and will most likely be experiencing rapid economic growth. Highly negative migration numbers represent an exodus of residents from the area. High amounts of migration, either negative or positive, reflect an unstable population base. On the other hand, migration rates nearing zero indicate a stable population base, whose growth or decline is determined primarily through birth rates and death rates. It should be noted that, whenever absolute figures (and not rates) are used, they should be considered in the context of the total population in the area. Large population centers will usually show large absolute figures, although rates (proportions) may be equal to those in less populated areas.

4. Per Capita Income

Per capita income is a measure of total personal incomes divided by total population. It is presented here solely as an economic indicator for each region.

5. Percent of Population Below Proverty Level

Another economic indicator is the percent of the total population classified below the poverty level.

6. Rate of Unemployment (1980)

The unemployment rate describes the percentage of the total civilian labor force which is without employment at any specific time. 1980 averages are presented in this report as one socioeconomic factor; however, unemployment rates vary a great deal from month to month and more long range comparisons must be conducted in order to determine if any significant correspondence can be drawn between unemployment and crime in Kentucky.

7. Population Density

Population densities offer the most useful information when comparing small land areas, as they can become indicators of overcrowding. Overcrowding is a factor which some psychologists have found to promote aggressive or violent behavior in animals. In this report, however, because the Area Development Districts vary in land area, densities will be most helpful in determining whether a large population simply represents a large area of land, or whether it represents a closely concentrated population, as in an urban center.

8. Land Area

This figure is included simply for informational purposes and because it is used to calculate the population densities. It is probably not very useful for comparing other socioeconomic and demographic data across the state of Kentucky due to the fact that in some areas much of the land is uninhabitable under present conditions. This is particularly true in very mountainous regions of eastern Kentucky.

APPENDIX

THE KENTUCKY UNIFORM CRIME REPORTING SYSTEM

DEFINITIONS

The Kentucky Uniform Crime Reporting System is concerned with the Uniform compilation, classification, and analysis of crime statistics reported by all police agencies in Kentucky pursuant to guidelines and regulations prescribed by law.

The legal authority establishing the Uniform Crime Reporting System in Kentucky is found in Chapter 17 of the Kentucky Revised Statutes as amended by the 1976 General Assembly. This chapter established a centralized criminal history record information system under the direction of the commissioner of the Department of State Police and vests in the Department the authority to require statistical reporting from local agencies concerning crimes committed in their respective jurisdictions.

Kentucky utilizes a reporting system that is compatible with the Federal Uniform Crime Reporting procedures; therefore, state crime data can be readily absorbed into the national system.

PURPOSE

Effective law enforcement requires a coordination of effort among various law enforcement agencies in regard to specific programs and areas of concentration. Inherent in the success of any coordinated effort is the intelligent application of law enforcement resources to a well defined problem area. Unless the problem area has been defined through valid methods based on accurate information, any concentrated allocation of resources runs a very large chance of being wasteful and unproductive.

Selective and coordinated enforcement becomes effective only when the type and volume of crime can be analyzed on the basis of accurate information systematically developed and comprehensively collated. Therefore, the availability of information revealing the location, frequency, and nature of criminal activity is essential if Kentucky's law enforcement agencies are to effectively combat the crime problem. The purpose of Kentucky's Uniform Crime Reporting System is to provide this information in an accurate, readable form.

OBJECTIVES

The Uniform Crime Reporting program in Kentucky serves as a parallel system with the National Uniform Crime Reporting System. Therefore, Kentucky's program sets forth objectives that are compatible with those of the federal program. The primary objective of the System is to provide accurate crime statistics for use in police administration, planning, and operations. Furthermore, the program provides the public with documented crime data which reveals general statewide crime conditions.

The following procedures are utilized by the program to attain these objectives:

(1) A Crime Index, consisting of seven serious offenses that are reported to the police, is used to measure the fluctuation and distribution of serious crime in the state.

(2) The total volume of police arrests for all types of criminal arrests is compiled.

(3) Since the above are measures of law enforcement activity as well as criminal activity, related data are collected to demonstrate the effectiveness of enforcement activities, available police strength, and significant factors involved in crime.

COLLECTION OF CRIME DATA

As required by statute, all law enforcement agencies in the state must submit crime reports to the program as requested. During 1983, information pertaining to offenses, arrests, and related supplementary information was received from 347 organized police departments. This includes municipal, county, and State Police organizations.

METHODS

Each contributing agency must compile its own reports. The Uniform Crime Reporting Guide, which is supplied to all contributors, explains reporting procedures in detail.

Law enforcement agencies report the number of known offenses according to the following categories which compose the Crime Index offenses:

(1) Homicide (Murder, Manslaughter, and Accidental Death)

(2) Forcible Rape

(3) Robbery

(4) Assault

(5) Breaking and Entering

(6) Larceny-Theft (excluding motor vehicle thefts)

(7) Auto Theft

These totals are determined from records of all criminal complaints received by the police from victims or other sources or which are discovered by the police during their operations. Complaints which the police investigation determines to be unfounded are not included in the total of index offenses. The number of offenses reported in each category reflects the total number of offenses known to the police; for purposes of utilizing the Crime Index, no regard is given to whether or not a suspect has been arrested, stolen property has been recovered, or any other consideration. However, law enforcement agencies do report the total number of Crime Index offenses for which arrests have been made, in a separate category.

Statistics are submitted to indicate the number of offenses cleared by the arrest of persons under 18 years of age. Additional analytical data pertaining to specific crime categories are also reported.

Reported offenses are tabulated according to the municipality and county in which they occur, rather than according to the agency which may investigate, arrest or otherwise dispose of the case. When a case is cleared by arrest, the clearance is attributed to the jurisdiction in which the offense occurred, even though the arresting agency may not be the department originally reporting the offense.

Examples of data contained in the annual Uniform Crime Reports are the number of persons arrested for all criminal offenses with respect to age, sex and race of the offender, as well as numbers of persons formally charged in connection with the offenses, and dispositions of the cases. Police employee data are also collected annually, including the number of police officers killed and assaulted.

In summary, the presentation of this report, "Crime in Kentucky", reflects the compilation of the seven Crime Index offenses known to the police, arrests of persons both under 18 years of age and 18 years of age and older, and the ultimate disposition of those persons charged. This information is collected by all law enforcement agencies in Kentucky and forwarded to the Department of State Police.

VERIFICATION PROCESS

As required by statute, all law enforcement agencies in the state must submit crime data reports to the State Police as requested for inclusion in the Uniform Crime Reporting program.

An obvious concern in the collection of crime statistics from 347 reporting law enforcement agencies throughout the state is the accuracy, uniformity, and completeness of data received. Precise instructions and guidelines do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors.

Each report received by the State Police is examined for mathematical accuracy and reasonableness as to interpretation of offense classification.

Note that data provided in this report is limited by the fact that not all law enforcement agencies in the Commonwealth reported for Uniform Crime Reporting purposes.

CLASSIFICATION OF OFFENSES

Uniformity of reporting depends upon the proper classification of offenses by the police. The basic guidelines for classifying offenses are formulated by the Uniform Crime Reporting Section of the Federal Bureau of Investigation. Kentucky has adapted these guidelines to its Program.

Due to the need for compatibility with the Federal system, offenses under the Kentucky Program are not distinguished by the designation of "felony", "misdemeanor", "violation", or "municipal ordinance". It must be emphasized that the following guidelines are not meant to be legal definitions of offenses; in fact, the guidelines may differ considerably, in some cases, from the legal definitions as they are written in the Kentucky Penal Code. The purpose of these guidelines is to establish a uniform national system for classifying similar offenses even though their legal definitions may vary considerably from state to state. The exact wording of the guidelines is developed by the Department of State Police; however, the major categories of offense classification remain the same as those employed nationally.

OFFENSE CLASSIFICATIONS

(1) Homicide

1a. Murder and Non-Negligent Manslaughter - The unlawful killing of a human being with malice aforethought.

General Rule - Any death due to a fight, argument, quarrel, assaults or commission of a crime.

1b. Manslaughter by Negligence - The unlawful killing of a human being, by another, without malice aforethought.

General Rule - The killing may result from the commission of an unlawful act or from a lawful act performed with gross negligence. Traffic deaths may be classified as such when due to gross negligence of someone rather than the victim.

1c. Accidental Death—Non Traffic - The death of a person resulting from his own gross negligence, mishap, or the negligence of another not sufficient in degree to classify the act as manslaughter.

(2) Forcible Rape

2a. Rape by Force - The carnal knowledge of a female forcibly against her will.

General Rule - Forcible rape of a female, but excluding carnal abuse (Statutory Rape) or other sex offenses.

2b. Assault to Rape—Attempts - All assaults and attempts to rape.

(3) Robbery - The felonious and forcible taking of the property of another, against his will, by violence or by putting him in fear. Includes all attempts.

General Rule - Robbery differs from larceny in that it is aggravated by the element of force or the threat of force.

3a. Armed robbery—Any weapon - Any object so employed as to constitute force or the threat of force is to be considered a weapon. This includes firearms, knives, clubs, brass knuckles, black-jacks, broken bottles, acid, explosives, etc. Also cases involving possible pretended weapons or when the weapon is not seen by the victim, but the robber claims to have it with him, constitutes armed robbery due to instilling fear.

3b. Strong Armed—No weapon - Includes muggings and similar offenses where no weapon is used, but strong arm tactics are employed to deprive the victim of his property. This is limited to hands, fists, feet, etc. As in armed robbery, all attempts are included.

(4) Assaults - An assault is an attempt or offer, with unlawful force or violence, to do physical injury to another.

General Rule - All assaults will be classified in the following categories, excluding assaults with intent to rob or rape.

4a. Gun - All assaults and attempted assaults involving the use of any type of firearms. (Revolvers, automatic pistols, shotguns, zip guns, rifles, pellet guns, etc.)

4b. Knife or cutting instrument - All assaults and attempted assaults, involving the use of cutting or stabbing objects. (Knife, razor, hatchet, axe, cleaver, scissors, glass, broken bottle, dagger, ice pick, etc.)

4c. Other dangerous weapon - All assaults or attempted assaults when any other object or thing is used as a weapon. (Clubs, bricks, pick handles, bottles, explosives, acid, lye, poison, scalding water and cases of attempted drowning, burning, etc.)

4d. Hands, fists, feet, etc.—Aggravated - Assaults which are of an aggravated nature when hands, fists, feet, etc. are used. To be classified as aggravated assault, the attack must result in serious personal injury.

(5) Burglary - Unlawful entry or attempted entry of any structure to commit a felony or larceny.

General Rule - Any unlawful entry or attempted forcible entry of any dwelling house, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer, warehouse, mill, barn, other building, house boat, or railroad car.

Note: For Uniform Crime Reporting purposes, burglary and larceny are classified only as burglary, the larceny is excluded. Breaking and entering a motor vehicle is classified as larceny.

5a. Forcible entry - All offenses where force of any kind is used to enter unlawfully a locked structure, with intent to steal or commit a felony. This includes entry by use of a master key, celluloid or other device that leaves no outward mark but is used to open a lock. Concealment inside a building, followed by the breaking out of the structure is also included.

5b. Unlawful entry—No force - Any unlawful entry without any evidence of forcible entry.

5c. Attempted forcible entry - When determined that forcible entry has been attempted.

(6) Larceny Theft (Except auto theft) - The unlawful taking of the property of another with intent to deprive him of ownership.

General Rule - All larcenies and theft resulting from pocket-picking, purse snatching, shoplifting, larceny from auto, larcenies of auto parts and accessories, theft of bicycles, larcenies from buildings, and from coin operated machines. Any theft that is not a robbery or the result of breaking and entering is included. Embezzlement, larceny by bailee, frauds or bad checks are excluded.

(7) Auto Theft - The larceny or attempted larceny of a motor vehicle.

General Rule - Thefts and attempted thefts of a motor vehicle. This includes all vehicles which can be registered as a motor vehicle in this state. Excludes where there is a lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access to the vehicle. (Chauffeur, employees, etc.)

(8) Other Assaults

This class is comprised of all assaults and attempted assaults which are simple or minor in nature. These "Other Assaults" are also scored on Return A under item 4e as an offense known to Police. However, for the purpose of this return arrests for this offense are scored in this class.

(9) Arson

Includes all arrests for violations of State Laws and Municipal Ordinances relating to arson and attempted arson. Any willful or malicious burning to defraud, a dwelling house, church, college, jail, meeting house, public building or any building, personal property of another, goods or chattels, etc. In the event of a death from arson, the offense would be classified as murder and if personal injury results, the offense would be classified as assault, (4c).

(10) Forgery and Counterfeiting

In this class are all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true.

Includes altering or forging public or other records. Making, altering, forging, or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc. Counterfeiting coins, plates, bank notes, checks, etc. Possessing or uttering forged or counterfeiting instruments. Signing the name of another or fictitious person with intent to defraud. All attempts to commit any of the above.

(11) Fraud

Fraudulent conversion and obtaining money or property by false pretense. Includes bad checks, confidence games, etc., except forgeries and counterfeiting.

(12) Embezzlement

Misappropriation or misapplication of money or property entrusted to one's care, custody or control.

(13) Stolen property: Buying, Receiving, Possessing

All offenses of buying, receiving, possession of stolen property, as well as all attempts to commit any of these offenses.

(14) Vandalism

All willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth or any such means as may be specified by law or ordinance. This offense covers a wide range of malicious behavior directed at property.

(15) Weapons: Carrying, Possessing, Etc.

This class deals with violations of weapons laws such as:

Carrying concealed deadly weapons
Flourishing deadly weapons
All attempts to commit the above

(16) Prostitution and Commercialized Vice

Included in this class are the sex offenses of a commercialized nature, such as:

Prostitution
Keeping bawdy house, disorderly house, or house of ill repute
Pandering, procuring, transporting or detaining women for immoral purposes, etc.
All attempts to commit any of the above

(17) Sex Offenses

Except forcible rape, prostitution and commercialized vice. Includes offenses against chastity, common decency, morals and the like.

Adultery and fornication
Buggery
Incest
Indecent Exposure
Sodomy
Carnal Abuse (no force)
All attempts to commit any of the above

(18) Narcotic Drug Laws

Narcotic drug law arrests are requested on the basis of the narcotics used. Includes all arrests for violations of State and Local Ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Includes the following subdivisions of narcotic drug law arrests:

Dangerous non-narcotic drug (barbiturates, benzedrine)
Marijuana
Synthetic narcotics, manufactured narcotics which can cause true drug addiction (demerol, methadones)
Opium or cocaine and their derivatives (morphine, heroin, codeine)

(19) Gambling

All charges which relate to promoting, permitting or engaging in gambling. To provide a more refined collection of gambling arrests, the following breakdown is furnished:

All others
Numbers and lottery
Bookmaking (horse and sport books)

(20) Offenses Against the Family and Children

Includes all charges of non-support and neglect or abuse of family and children.

Desertion, abandonment, or non-support
Neglect or abuse of child
Non-payment of alimony

(21) Driving Under the Influence

This class is limited to the driving or operating of any vehicle while drunk or under the influence of liquor or narcotic drugs.

(22) Liquor Laws

With the exception of "Drunkenness" (Class 23) and "Driving Under the Influence" (Class 21), liquor law violations, State or Local, are placed in this class. Does not include Federal Violations. Includes manufacturing, sale, transporting, possessing, etc.

Maintaining unlawful drinking places
Bootlegging, illegal possession

Operating still
Illegal sale of liquor
Illegal transportation of liquor

(23) Drunkenness

Included in this class are all offenses of drunkenness or intoxication, with the exception of "Driving Under the Influence" (Class 21).

Drunk and Disorderly
Public Intoxication

(24) Disorderly Conduct

In this class are counted all Disorderly Persons arrested except those counted in Classes 1 through 23 and Class 25.

(25) Vagrancy

Placed in this class are arrests for disorderly persons when the person is arrested for failure to give a good account of himself and has no means of support.

CRIME RATES

Crime rates relate the incidence of crime to population. A crime rate should be considered as an expression of the risk of victimization for a specific offense.

Crime rates are calculated on the basis of the size of the resident population and the number of offenses reported for that specific population. In order to utilize a standardized unit of measure, these crime rates are expressed in terms of the number of offenses occurring per 100,000 residents. If a jurisdiction does not have as many as 100,000 residents, the offenses and number of residents are extrapolated to determine what the rate per 100,000 residents should be.

AREA DEVELOPMENT DISTRICT	1980 POPULATION	1983 POPULATION	PERCENT POPULATION CHANGE
Purchase	180,348	184,691	2.4
Pennyrile	204,937	212,899	3.9
Green River	199,048	205,402	3.2
Barren River	217,041	226,028	4.1
Lincoln Trail	217,727	225,364	3.5
Jefferson	804,483	819,143	1.8
Northern Kentucky	313,550	322,582	2.9
Buffalo Trace	54,636	56,217	2.9
Gateway	66,340	69,279	4.4
FIVCO	140,734	146,804	4.3
Big Sandy	181,759	196,657	8.2
Kentucky River	134,437	142,630	6.1
Cumberland Valley	227,557	240,877	5.9
Lake Cumberland	171,049	180,526	5.5
Bluegrass	547,787	572,720	4.6
TOTAL	3,661,433	3,801,819	3.8

STATE OFFENSE DATA
1983

CRIMES AGAINST PERSONS

The four offense categories that comprise the "crimes against persons" or "violent crimes" are murder, rape, robbery, and aggravated assault. These are the most serious types of crimes because they place the victim in fear of his life or person.

When the total number of crimes against persons is compared with all reported crimes, the crimes against persons make up 9.0% of reported index crimes in the state. Of these, aggravated assaults alone account for over half. Robberies make up less than one-third of the total, with rapes being accountable for 6.8% and murder and non-negligent manslaughter only making up 2.7%. As can be noted from the table, however, these rates can vary widely from district to district within the state.

Area Development District	Index Crimes		Personal Crime Index					
					# of Personal			
	Total Number	% Against Persons	Total Personal	Rate Personal	Murder	Rape	Robbery	Aggrav. Assault
Purchase	4,804	6.6	315	170.6	4	22	74	215
Pennyrile	4,833	9.9	479	225.0	20	33	90	336
Green River	6,264	5.6	353	171.9	9	39	63	242
Barren River	4,949	10.1	498	220.4	25	37	82	354
Lincoln Trail	3,975	9.4	372	165.1	13	25	51	283
Jefferson	37,231	8.5	3,180	388.2	63	220	1,678	1,219
Northern Kentucky	11,901	8.4	998	309.5	10	71	258	659
Buffalo Trace	506	19.4	98	174.4	4	9	7	78
Gateway	930	9.4	87	125.7	7	3	16	61
FIVCO	3,198	10.4	334	227.5	5	8	50	271
Big Sandy	2,316	15.3	355	180.6	18	15	34	288
Kentucky River	1,565	22.2	347	243.3	22	17	36	272
Cumberland Valley	4,192	14.5	608	252.5	28	30	73	477
Lake Cumberland	2,111	8.8	186	103.0	16	18	24	128
Bluegrass	23,059	7.9	1,827	319.0	31	135	445	1,216
Total Kentucky	111,834	9.0	10,037	264.1	275	682	2,981	6,099

CRIMES AGAINST PROPERTY

Property crimes include the categories of "Burglary", "Larceny", and "Auto Theft". They are crimes committed predominately for the purpose of illegally obtaining property belonging to another person, but they do not place the victim in fear of his life or person. In 1983, 101,797 crimes against property were reported to law enforcement agencies in Kentucky. These account for 91.0% of all index crimes reported in that year. The rate of auto theft remained fairly constant from 1979 to 1982 with a slight decrease in 1983.

PROPERTY CRIMES AND ROBBERY

For the purposes of gaining an insight into the occurrence of property related crimes in the state of Kentucky, it is helpful to view the personal crime of robbery in the same context. The reason for this is that robbery, like the crimes against property, is motivated by a desire to illegally obtain merchandise belonging to another individual. Therefore, when viewing the state as a whole in an effort to determine where property motivated crimes occur, robbery must be included as a property crime, although it is, at the same time, a serious personal offense. The following table depicts the distribution of property motivated crimes in Kentucky. The table does not include all property offenses, but only those which are index crimes.

	Index Crimes		Robbery & Property Crimes					
Area Development District	Total Number	% Property Crimes and Robbery	Total Number	Rate	Total Number			
					Robbery	Larceny	Burglary	Auto Theft
Purchase	4,804	95.0	4,563	247.2	74	2,892	1,358	239

MURDER IN KENTUCKY

DEFINITION

Murder is defined as the unlawful killing of a human being with malice aforethought. Any death due to a fight, argument, quarrel, assault, or commission of a crime is included in the count. This index offense is recorded by police on the basis of incidents reported. It should not be construed that those figures reflect arrest, arraignment, or conviction data. Traffic deaths caused by the negligence of someone other than the victim are not included here, but are counted under manslaughter by negligence. Suicides, accidental deaths, and justifiable homicides are also excluded.

CLEARANCE RATE

Much of the recent literature being generated from the field of criminal investigation outlines a number of characteristics associated with the crime of murder. Researchers have found possible indications that most murders occur between acquaintances spontaneously, usually as the result of a heated argument or other highly emotional situation. Many times one or both of the parties are under the influence of alcohol, reacting violently with little or no regard as to the consequences of their actions. In "smoking gun" cases, where the perpetrator is still at the scene of the murder when police arrive, or in cases where there are witnesses present, although the assailant may have fled, it is relatively easy for investigators to determine the identity of the murderer and to effect an arrest. When the identity of the suspect is unknown, the investigator's task becomes more difficult, and usually requires much more effort. Due to the heinous nature of the crime, murders are given high priority in criminal caseloads, with intense continuing investigations usually resulting in the identity and arrest of a suspect. Given the above considerations, however, the clearance rate among murder cases is normally very high compared with other types of crimes.

In 1983, law enforcement agencies in Kentucky cleared 86.5% of all murders reported. Twenty of the cases (8.4%) resulted in juvenile arrests.

HOW MANY MURDERS WERE COMMITTED?

In 1983, 275 cases of murder and non-negligent manslaughter were reported to law enforcement agencies in Kentucky.

WHERE DO MURDERS OCCUR IN KENTUCKY?

For the purpose of representing those areas of the state in which murders occurred most frequently in 1983, the following table is presented. It depicts the number of murders reported in each Area Development District, the percent of the total occurring in each area, and the murder rate.

Area Development District	Number Reported	Percent of Total	Murder Rate
Purchase	4	1.5	2.2

PERSONS ARRESTED

At the present time, the only statewide data available pertaining to personal characteristics of criminal offenders must be gleaned from arrest data. Arrest statistics, however, result only from the conclusions drawn during a police investigation. They do not take into consideration subsequent judicial proceedings which may find the arrestee completely innocent, or guilty of a lesser offense. Arrest statistics, likewise, will not reflect those offenders who commit crimes, but who are not reported to or arrested by police.

The following table profiles age, sex, and race of persons arrested for murder in 1983 by Area Development District. These figures measure arrests made, not offenses reported.

PERSONS ARRESTED FOR MURDER

RAPE IN KENTUCKY

DEFINITION

Forcible rape is defined as the carnal knowledge of a person forcibly and against their will. All assaults to rape and attempts to rape are counted; carnal abuse, statutory rape, and other sex offenses are not included.

CLEARANCE RATE

Of 682 rapes and rape attempts reported in Kentucky in 1983, 66.9% were cleared by arrest. Thirty-six of these resulted in juvenile arrests.

In the past, the major problem in combating rape has not been in the category of clearance of cases, so much as in the accurate reporting of cases. Due to the threat of embarrassment, shame, public criticism, or some other emotional strain, rape victims have been reluctant to report this offense to police and authorities. Through public education campaigns, the growth of counseling centers for rape victims and their families, increased awareness by agencies, and recent legislation, it is hoped that more victims are coming forward to report this crime when it occurs. At this time, however, there is no way of accurately determining whether there is an increase in reporting, or not.

HOW MANY RAPES OCCURRED?

There were 682 rapes reported in Kentucky in 1983. This represents an increase of 6.4% over 1982.

Area Development District	Number Reported	Percent of Total	Rape Rate
Purchase	22	3.2	11.9

PERSONS ARRESTED

In Kentucky, the only data collected pertaining to rapists deals with age, sex, and race of persons arrested for rape. Most of these were young males (although five females was arrested for rape). Of those arrested, 76.9% were white, with non-whites arrested generally in the central and western areas of the state. This data is presented in the following chart, depicting persons arrested for rape in 1983. It should be remembered that arrest statistics do not allow for the innocence of the arrestee, nor for offenders who do not get reported to police, or are not arrested.

ROBBERY IN KENTUCKY

DEFINITION

Robbery is defined as the felonious and forcible taking of the property of another against his will by violence or by putting him in fear. The element of personal confrontation is always present in this crime. Under the Program, all assaults or attempts to rob are included. Robberies are reported in two general categories - armed, any weapon (when any object is used as a weapon) and strong arm, which includes muggings and similar offenses where no weapon is used, but strong arm tactics are employed.

CLEARANCE RATE

Of 2,981 reported robberies in Kentucky during 1983, 31.9% were cleared by arrest. Of these, 11.8% were juvenile arrests. Although robbery is a very serious personel crime, the clearance rate for robbery crimes is the lowest of the four major personal crimes (murder, rape, robbery, aggravated assault). One factor which could impact the clearance rate of this crime might be the likelihood that the victim and robber are strangers. Without the victim's identification of a suspect, the detective's investigation becomes more difficult.

HOW MANY ROBBERIES OCCURRED?

Armed robberies accounted for approximately 55.4% of all robberies reported.

WHERE DO ROBBERIES OCCUR IN KENTUCKY?

The table depicts the distribution of total robberies and robbery rates in 1983 by Area Development District, not the extremely high incidence of robbery in major urban areas.

Area Development District	Number Reported	Percent of Total	Robbery Rate

AGGRAVATED ASSAULT

DEFINITION

Aggravated Assault, as defined under the Kentucky Uniform Crime Reporting System, is an attempt or offer, with unlawful force of violence, to do serious physical injury to another. Attempts are included since it is not necessary that any injury result when a gun, knife, or other weapon is used which would result in serious personal injury if the crime were successfully completed.

CLEARANCE RATE

Of 6,099 aggravated assaults reported to police agencies in Kentucky during 1983, 69.3% were cleared by arrest. Of these, 338 (8.0%) resulted in juvenile arrests. The element of confrontation between victim and offender, present in this case, probably contributes to this relatively high rate of clearance as it does in other crimes against the person.

HOW MANY AGGRAVATED ASSAULTS OCCURRED?

The 6,099 aggravated assaults reported to police agencies in Kentucky during 1983 represents a 1.8% increase from 1982.

WHERE IN KENTUCKY DO AGGRAVATED ASSAULTS OCCUR?

WEAPONS USED

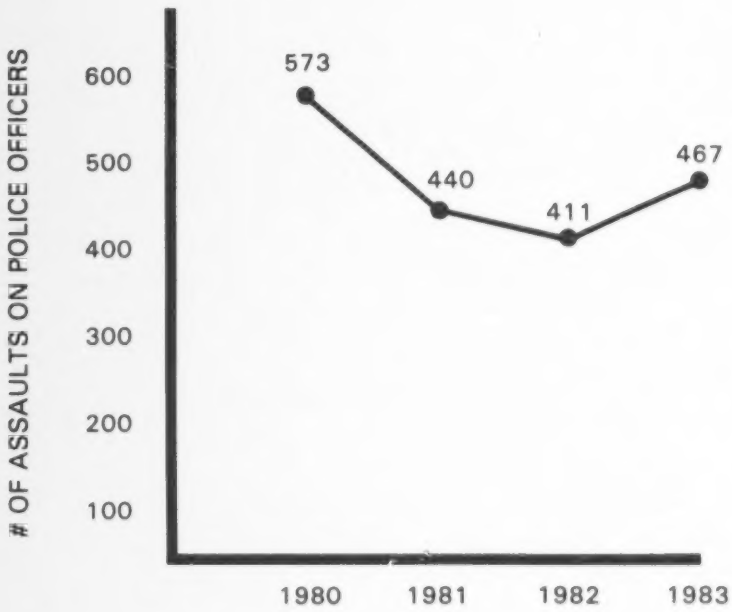
The use or attempted use of a dangerous weapon in an assault or the serious injury inflicted by hands, fists, or feet separates this Index Offense from those assaults categorized as "simple" and not aggravated in nature. The victim of an actual assault of this type may suffer serious injury or permanent disability, and all assaults to kill and attempts to kill are recorded in this area. Most aggravated assaults, like murder, probably occur within the family unit or among neighbors or acquaintainces.

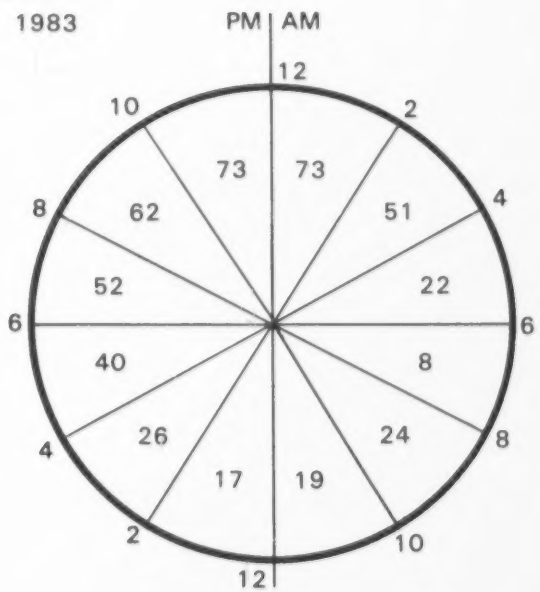
During 1983, 20.2% of all aggravated assaults reported were committed through the use of a firearm. Knives and cutting instruments contributed 14.7%, other weapons used 19.6% of the time, and the remaining 45.5% involved the use of personal weapons (hands, feet, fists, etc.).

POLICE OFFICERS ASSAULTED

The killing or assault of a police officer has implications which reach far beyond the overt act. Such occurrences, are, in effect, an attack upon the law and upon society itself. These attacks constitute an immediate threat to the wellbeing of the community and the police officers who protect and serve it. This situation must become a subject of serious public concern.

The total number of police officer assaults increased 13.6% in 1983 and 467 officers were assaulted, of which 272 resulted in injury and 195 without injury.

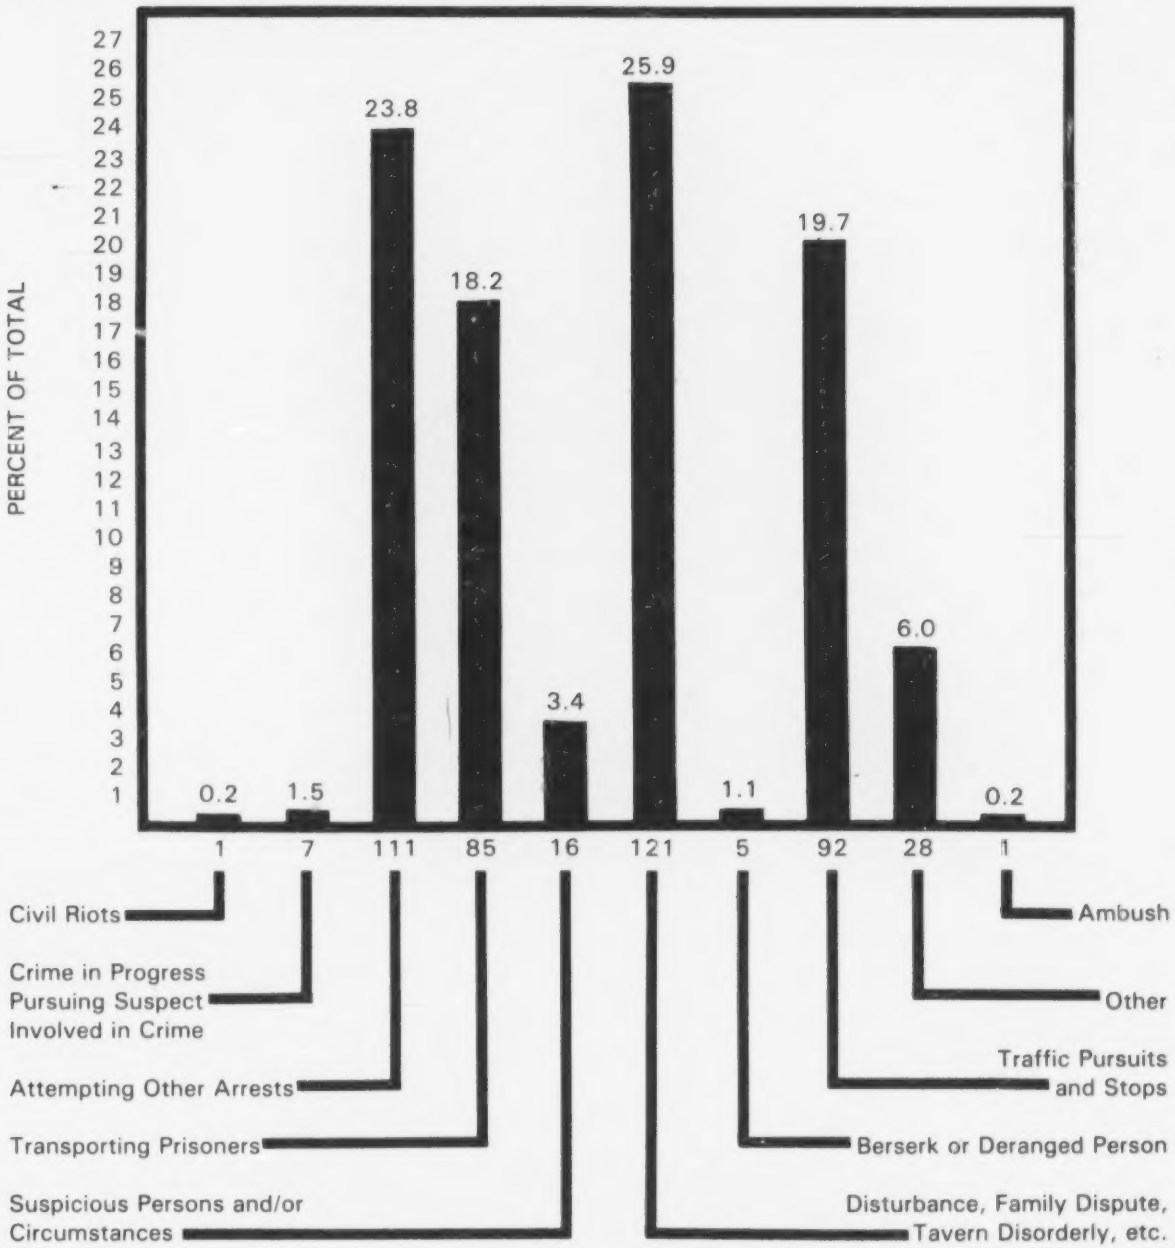




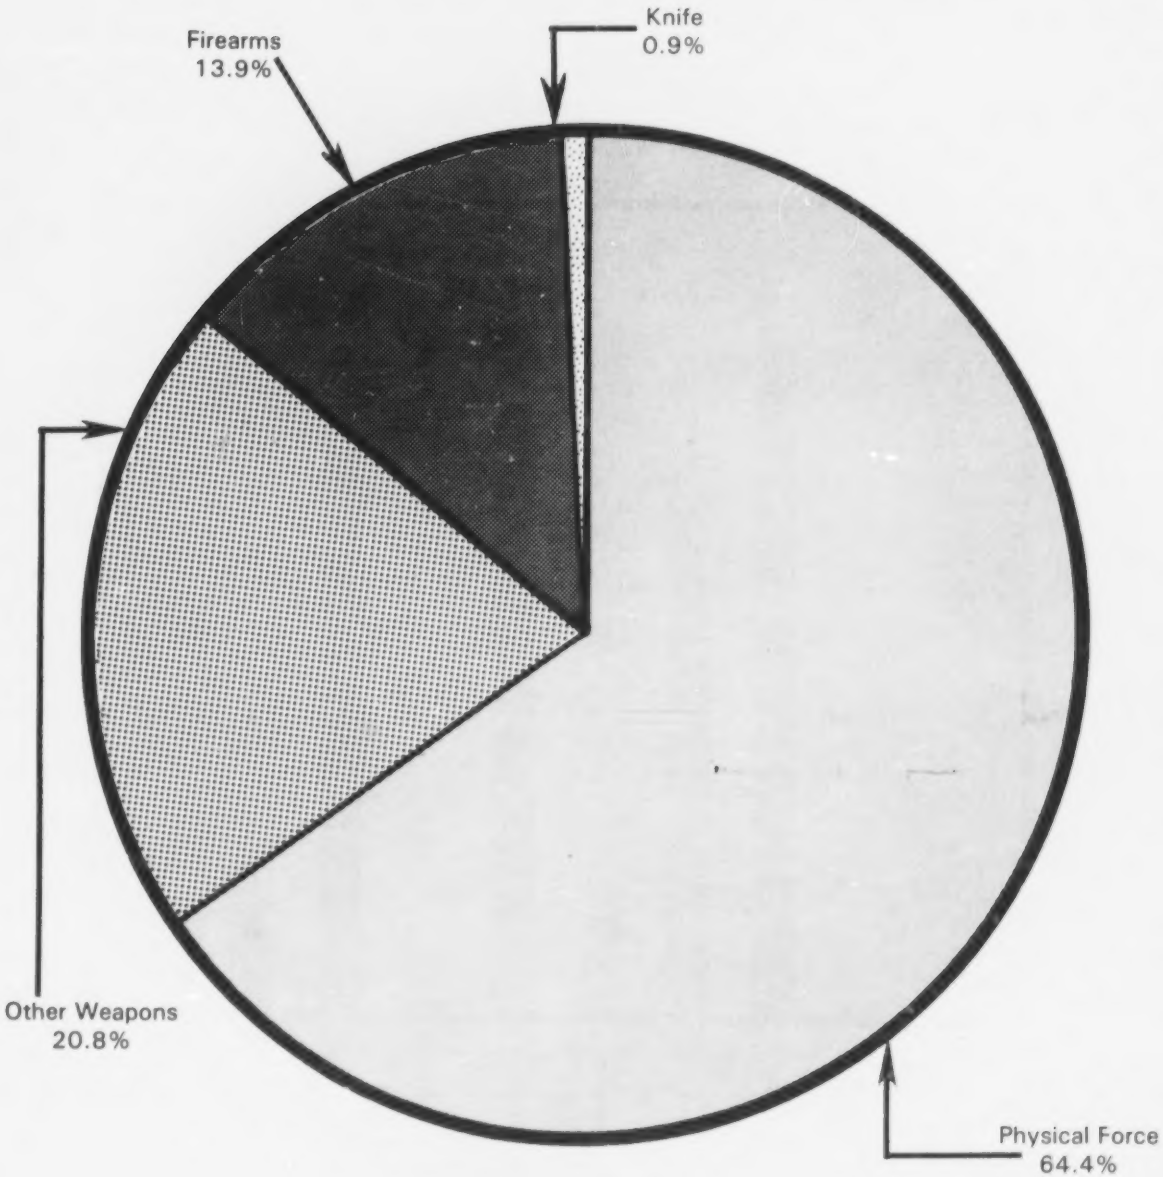
TYPE OF ACTIVITY 1983
POLICE ASSAULTED

A study of the type of service rendered by the police officer when he was assaulted gives an indication of the degree of jeopardy an officer faces in a given situation. The three activities reflecting the highest percentage of officer assaults were:

(1) disturbance, family dispute, tavern disorderly, etc. - 25.9%
(2) attempting other arrests - 23.8%
(3) traffic pursuits and stops - 19.7%



WEAPONS USED IN ASSAULTS ON POLICE OFFICERS 1983



BURGLARY

DEFINITION

Under this program, Burglary is defined as the unlawful entry of a structure to commit a felony or larceny even though no force was used to gain entrance. Crimes reported in this category are broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

CLEARANCE RATE

Of 31,066 cases of Burglary reported to police agencies in Kentucky during 1983, 16.2% (5,031) were cleared by arrest. Of those cases, 27.8% (1,398) resulted in juvenile arrests.

HOW MANY BURGLARIES WERE COMMITTED?

The 31,066 reported cases of Burglary during 1983 represents a 7.6% decrease from the previous year.

WHERE DO BURGLARIES OCCUR IN KENTUCKY?

The following table depicts the incidence of Burglary by Area Development District.

LARCENY IN KENTUCKY

DEFINITION

Larceny Theft is the unlawful taking or stealing of property or articles of value without the use of force, violence, or fraud. It includes crimes such as shoplifting, pocket-picking, purse snatching, thefts from autos, thefts of auto parts and accessories, bicycle thefts, etc. In the Uniform Crime Reporting Program, this crime category does not include embezzlement, "congames", forgery, and worthless checks. Auto theft is excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index Offense.

The Crime Index Offense of Larceny formerly included only those thefts where the value of the goods stolen is $50 or more. It might be noted that this classification was changed in 1973, and the total larceny cases are now being used in the compilation of the Crime Index.

CLEARANCE RATE

Of 63,978 cases of Larceny reported to police agencies in Kentucky during 1983, 18.9% were cleared by arrest. Of those cases, 25.7% (3,115) resulted in juvenile arrests.

HOW MANY LARCENIES WERE COMMITTED?

The 63,978 reported cases of larceny during 1983 represents a 4.6% decrease from the previous year.

WHERE DO LARCENIES OCCUR IN KENTUCKY?

The following table depicts the incidence of Larceny by Area Development District.

Area Development District	Number Reported	Percent of Total	Larceny Rate

Household Goods	$ 1,635,596	$ 182,980
Consumable Goods	$ 1,279,619	$ 133,212
Livestock	$ 567,268	$ 53,509
Miscellaneous	$22,020,183	$ 3,492,531
Totals	$78,279,173	$21,636,302

Almost one out of every four larcenies which occurred in 1983 resulted in the taking of auto parts and accessories. This offense was closely followed in frequency by the unlawful taking of something from an automobile. Together, these two classifications accounted for over 46.2% of all reported larcenies, and resulted in 37.7% of all total property value loss for larceny.

The distribution of offenses and the property value associated with each classification are depicted on the following table.

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Pocket-Picking	165	0.3	$ 34,707	$ 210

AUTO THEFT IN KENTUCKY

DEFINITION

In Uniform Crime Reporting, Auto Theft includes all thefts and attempted thefts of a motor vehicle. This includes any vehicle which can be registered as a motor vehicle in this state. This definition excludes taking a motor vehicle for temporary use, such as a family situation or unauthorized use by another having lawful access to the vehicle, such as chauffeurs, etc.

CLEARANCE RATE

Of 6,753 cases of auto theft reported to police agencies in Kentucky during 1983, 16.7% (1,129) were cleared by arrest. Of those cases, 23.6% (267) resulted in juvenile arrests.

HOW MANY AUTO THEFTS WERE COMMITTED?

The 6,753 reported Auto Thefts during 1983 represents a 10.3% decrease from the previous year.

WHERE DO AUTO THEFTS OCCUR IN KENTUCKY?

The following table depicts the incidence of Auto Theft by Area Development District.

Area Development District	Number Reported	Percent of Total	Auto Theft Rate
Purchase	239	3.5	129.5

STATE ARREST DATA
1983

STATE ARREST DATA

A. STATE ARREST DATA

For the purpose of this report, an individual arrested for committing two or more offenses during a single crime incident will be charged only for the most serious offense. On the other hand, perpetrators of two or more crimes that did not occur in a given time period, or cannot be classified as a single incident, will be charged, upon arrest, for each separate offense.

In 1983, there were 199,143 arrests in the Commonwealth of Kentucky - 25,646 for Index and 173,497 for other offenses. There was a 5.7 percent decrease in reported Index crimes while the arrest percentage increased 15.2 percent.

The 25,646 arrests for Index offenses constitute 12.9 percent of the arrests for all crimes in 1983.

Arrests increased for all Index offenses during 1983. The overall percent increase in arrests for Index offenses from 1982 to 1983 was 15.2 percent. Page 77 presents this data along with the 1982-1983 comparison data for arrests for other offenses.

AGE OF ARRESTED PERSONS

The number of persons arrested in 1983 in 22 age categories is presented in a table on Pages 78-79; 24.4 percent of the persons arrested for Index offenses were juvenile offenders (under 18 years of age). Between the ages of 18 and 34 years of age, 15,338 persons were arrested for Index offenses - this figure is more than half (59.8 percent) of the total arrested persons. These two general age groupings constitute 84.2 percent of the arrests for Index offenses in Kentucky during 1983.

Page 80 compares the arrest data for 1982-83 by the arrests of persons under and over 18 years of age and provides the percent change for each of the Index and other offenses. In the "under 18 years of age" column, Index crimes an increase in juvenile arrests with the exception of Forcible Rape.

ARRESTS BY SEX

This year the arrests for Index crimes were 81.7 percent male and 18.3 percent female.

The table on Page 81 presents the male/female arrest data for all Index and other groupings of offenses.

ARRESTS BY RACE

In 1983, 88.0 percent of the total arrests in Kentucky were White, 11.9 percent Black, and less than 0.1 percent were American Indian or Alaskan native and Asian or Pacific Islander.

The table on Page 82 shows the number of arrests by race for each of the Index and other offenses.

When looking at the Index offenses, the involvement of Whites in 1983 was 75.7 percent and 24.1 percent for Blacks, and the other four groupings are below 1 percent.

GAMBLING ARRESTS

The percent of gambling arrests for the year 1983 is 7.4 percent Lottery, 35.9 percent Bookmaking, and 56.7 percent all other gambling. (See Page 83.)

	% Lottery	% Bookmaking	% All Others
1979	4.3	28.1	67.6
1980	1.6	19.6	63.8
1981	1.0	12.4	86.6
1982	1.2	16.6	82.2
1983	7.4	35.9	56.7

NARCOTIC ARRESTS

There were 9,417 total narcotic related arrests in 1983. Of this total, 618 (6.6%) were releated to opium or cocaine, 6,668 (70.8%) marijuana related, 408 (4.3%) synthetic narcotics related, and 1,723 (18.3%) for other dangerous non-narcotic drugs.

B. CLEARANCE RATES

For Uniform Crime Reporting programs, a crime can be cleared through two procedures: clearance by arrest or clearance by exceptional means. A clearance by exceptional means occurs when some element beyond police control, such as the victim's refusal to prosecute, suicide of the offender, the killing of two persons in a double murder, the reporting of an offense through death bed confession, and similar circumstances, precludes prosecution. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one crime.

During 1983, 21.6 percent of all Index crimes were cleared by arrest or exceptional means. The clearance rates for crimes against persons were: Murder 87 percent, Rape 67 percent, Robbery 32 percent, and Aggravated Assault 69 percent. The clearance rates for crimes against property were: Burglary 16 percent, Larceny 19 percent, and Auto Theft 17 percent.

The table on Page 102 presents the annual clearance rates for each Index offense for the years of 1979 thru 1983 and the average annual clearance rates for the five year period.

The total Index crime by Area Development District, the number of cases reported, the percent cleared and the percent involvement of adults and juveniles in the cleared cases are presented on Page 102 . The percent involvement by each Index crime are depicted on Page 103 .

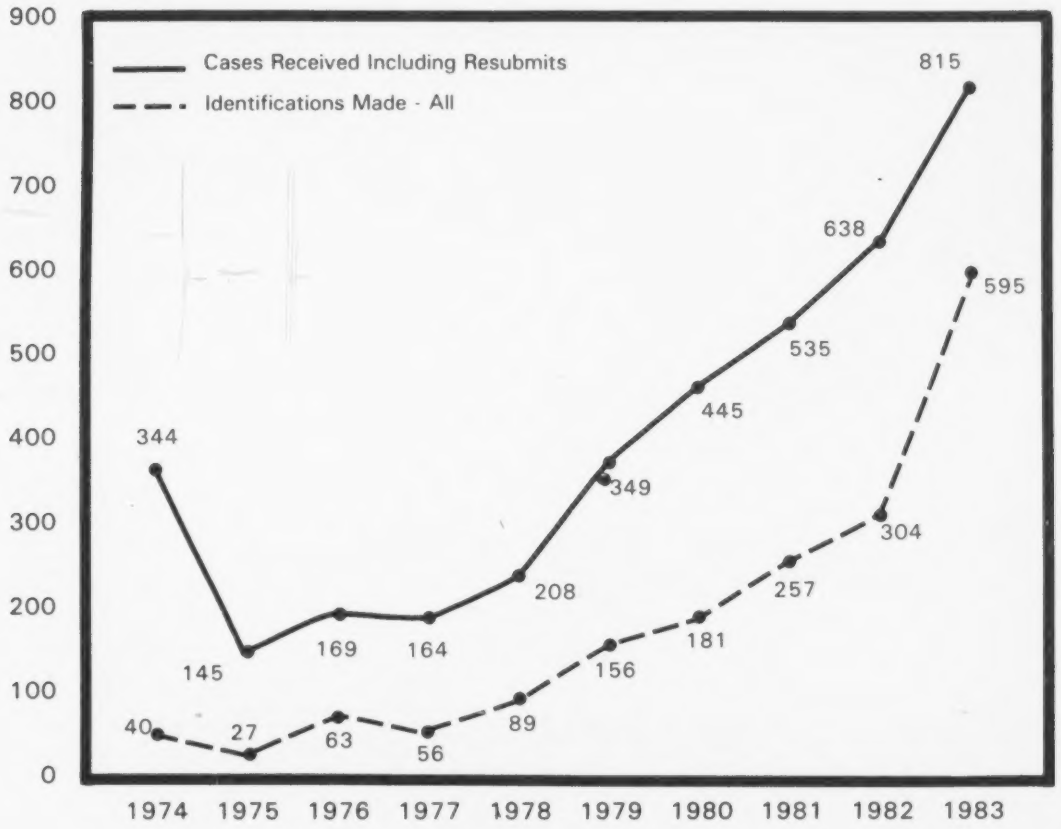
LATENT ACTIVITY

During 1983, the staff of the Information Systems Section, Identification Unit received 815 latent cases resulting in the examination of 47,587 pieces of evidence and the comparison of 1,188 individuals. 595 positive identifications were made on the fingerprints of the submitted individuals. Through the fingerprint submission process, 6 deceased and 15 "wanted" individuals were identified. Latent examiners appeared in 24 court cases, resulting in a 100% conviction rate of the suspects testified against. A total of 21,704 fingerprint cards were submitted to the Information Systems Section with 10,140 individuals identified as having previous records.

CASES RECEIVED/IDENTIFICATIONS MADE (1974 - 1983)



The Information Systems Section is providing the below listed services on a 24 hour/7 day per week/holiday basis:

1. Criminal history record searches based upon name, date of birth and other personal identification or a ten card set of fingerprints. Immediate telephone or teletype dissemination is available upon request.
2. Certified copies of Abstracts (Rap Sheets) inclusive of arrest data from FBI Abstracts.
3. Present felony offender verification in the form of certified arrest record from all agencies within the Commonwealth.
4. Record subject verification. . .Fingerprint Technicians available for court testimony in cases that defendant denies criminal record.
5. Mug shots of felony offenders from the "Master" Repository Mug Shot File that consists of photos submitted from all agencies within the Commonwealth.
6. Within one hour from time of request, the Information Systems Section will have available for pick-up, mug shot lineups consisting of seven similar photos for suspect identification.
7. Provide latent fingerprint processing on evidence submitted from agencies with minimum turn around time.
8. Provide "on site" latent fingerprints assistance at crime scenes that require a great deal of technical expertise.
9. Provide fingerprints processing on decomposed or badly multilated bodies. Initiate identity search on same.
10. Identify "wanted persons" using aliases.
11. Coordinate the Kentucky State Police 10 Most Wanted File.
12. Provide quarterly Crime Return "A" for the requesting agency.
13. Provide quarterly Supplementary Report of Offenses for the requesting agency.
14. Provide quarterly age, sex and race of persons arrested under 18 years of age and 18 years of age or over by offense for the requesting agency.
15. Provide in-depth victim and offender profile for Part 1 Crime.
16. Provide in-field technical assistance to agencies in the development and/or installation of law enforcement records systems.
